Service History [101189]	2

Application Corrections

Can't reverse GL transaction [89892]

When a GL entry is reversed in a closed accounting period, the entry needs to be updated to link to the newly created reversal entry. We changed this so the validation will not give an error.

Service History [101189]

We resolved an issue with the Service History tab so that it displays data as expected and does not generate an error.
