Invoice Form issues .....	2
Hide work order totals on PDF .....	2
Request by on work order max length 50 .....	2
Vendor Edit page string length .....	2

## Application Corrections

Resolved Issues
<p><b>Template engine invoice not using the logo from settings</b></p> <p>Resolved this issue so that the template uses the default invoice logo when generating the default invoice/credit template.</p>
<p><b>Invoice Form issues</b></p> <p>Resolved issues with the invoice form to correct typeset issues, formatting errors, the memo field, and to add the contact us fields.</p>
<p><b>Hide work order totals on PDF</b></p> <p>Resolved an issue so that when the billing option <b>Hide Totals</b> is turned on (this is on the Work Order &gt; Billing tab), the work order totals are also hidden on the invoice PDF file.</p>
<p><b>Request by on work order max length 50</b></p> <p>On the work order, changed the length of the <b>Requested By</b> field from 25 to 50 characters.</p>
<p><b>Vendor Edit page string length</b></p> <p>On the Vendor page, corrected the maximum length of vendor <b>Name</b>, <b>Payable To</b>, <b>Memo</b>, and <b>GL Account</b> number fields so the data properly saves.</p>
