

Managely Release Notes

July 2026

Version 5.3.70.9

MANAGELY®

Application Corrections

Invoice lines cannot be updated; when the amounts are edited and saved, they revert to original values [00166280]

Invoice lines could not be updated. When users edited the amounts and saved, the amounts reverted to the original values.

The program now recognizes lines that were edited and those get saved as expected.
