

Manufacturer Setup

Last Modified on 04/27/2022 10:40 am EDT

From the main menu, arrive at the Manufacturer setup with this path: Setup > Items & Parts > Manufacturer.

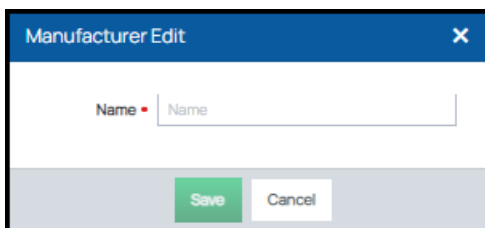

The Manufacturer list will be displayed. Click on the Add Manufacturer button at the upper left of the page.

The Manufacturer Edit form will be displayed. There is only one data entry field on this form: **Name**. You may enter up to 50 characters in this field.

When finished, click the Save button at the bottom of the form.

Repeat this process until all Manufacturers have been added. You may add additional manufacturers at any time.

The screenshot shows a modal window titled "Manufacturer Edit" with a close button (X) in the top right corner. Inside the window, there is a single text input field labeled "Name" with a red asterisk next to it. Below the input field, there are two buttons: a green "Save" button and a white "Cancel" button with a grey border.
