## **Trial Balance Report**

Last Modified on 08/18/2025 6:27 pm EDT

The Trial Balance Report lists the total debits and credits posted to each G/L Account as of a particular date.

Under the double-entry accounting system, in any transaction, the total debits must equal the total credits. So in a Trial Balance the total of the debit side should always be equal to the total of the credit side.

This report serves as a tool to detect errors, which can result in the totals not being equal. Often, credits are represented as a negative, in which case the total of the trial balance should be 0. The report may be generated for an accounting period range or a specific date range. An option is available to print the data for All Branches or one particular Branch.

## **Report Parameters**

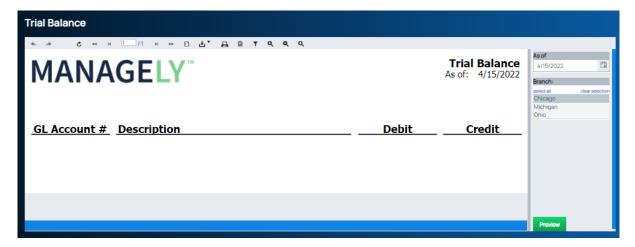

The parameters available for this report are:

- As of Date
- Branch

## Generate the Trial Balance Report

- 1. To generate this report, navigate to Reports > Accounting > Trial Balance.
- 2. The Trial Balance Report page is displayed. In the Parameters area, make the desired selections. When finished, click on the Preview button.

3. The report results are based on the selections in the parameters area. Users may use the function buttons to print or export the report.
