

Delete a Sales Tax Record

Last Modified on 04/29/2022 5:45 pm EDT

To delete a Sales Tax record, from the main menu, arrive at the Sales Tax setup with this path: Setup > Accounting > Sales Tax.

The Sales Tax list will be displayed. Locate the Sales Tax record you want to delete, and then click on the Delete button (trash can icon).

Note: When the User selects Yes to accept the deletion of the record, this does not delete the value from the database, however, marks the record as “Inactive”. In most cases, if a setup value was previously marked as “deleted”, a user is able to re-activate the deleted [inactivated] record. When selecting to view Inactive Only records, items that were previously “deleted”, will appear in the inactive list.

The screenshot shows the 'Sales Tax' setup screen. At the top, there are buttons for '+ Add Sales Tax' and 'Export to Excel'. Below these are two radio buttons: 'Show base sales taxes only' (selected) and 'Show inactive sales taxes'. The main area is a table with columns: Tax Code, Description, Recurring, Non-Rec., Base, Breakout, GL Account, and Rate. The table contains 13 rows of sales tax records. The first row, 'CA-Tustin', has a trash can icon circled in green. At the bottom right, there is a 'Refresh' button and a status indicator '1 - 18 of 18 items'.
