

Central Station Integrations

Last Modified on 06/22/2023 4:43 pm EDT

To add a Central Station Integration, navigate to Setup>Utilities>Third Party Services.

From there, toggle to the Central Station Integrations tab.

Choose the integration from the names presented; click the + sign next to the integration you wish to use.

Select the Add Connection button

Complete the Edit Connection fields; click Save when done.

NOTE: Once the integration connection has been completed, test the integration using the Test Button

In each integration, choose to enable AutoSync or not use the toggle button.

See below for specific integrations and the data needed for the connection:
