

# Inter-Branch Part Transfers (Pro)

Last Modified on 11/04/2024 5:09 pm EST

When transferring parts between warehouses, the transfers create inter-branch entries if the warehouses are in different branches.

For Example: Part transfers in between branches:

	Warehouse A Branch A	Warehouse B Branch B
Part A	\$50.00	\$100.00

Transferring one of Part A from Warehouse A to Warehouse B:

	Debit	Credit	Branch
Inter-Branch A	\$50		Branch A
Warehouse A		\$50	Branch A
Warehouse B	\$100		Branch B
Inter-Branch B		\$100	Branch B
