Managely - 5.3.53 (August 2025)

Last Modified on 10/08/2026 10:33 am EDT

Important! Branch IDs (a Pro feature) are required in database tables where they were not before, and we are setting branch ID values where they were missing. Refer to the release notes for additional information.

Important! We made changes to templates that will require users to Sync Stock templates (Templates & Forms > Templates) after the update.
