

Managely - 5.3.53 (August 2025)

Last Modified on 08/12/2025 10:35 am EDT

Currently Managely 5.3.53 is scheduled for release Monday, August 18th. The date and content of the release are subject to change.

Important! Branch IDs (a Pro feature) are required in database tables where they were not before, and we are setting branch ID values where they were missing. Refer to the release notes for additional information.

Important! We made changes to templates that will require users to Sync Stock templates (Templates & Forms > Templates) after the update.
